

Get HeadBlade® Sport and a great quality shave cream like Headslick.

Wet head with hot water, or take shower. As a pre-shave, use HeadBlade HeadShed Exfoliator to lift up hairs from scalp. Lather up using HeadSlick Shave Cream.

Put HeadBlade Sport on middle finger. Rest it between first and second knuckle.

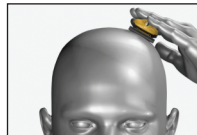

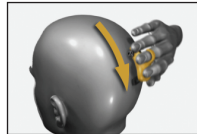

Take long smooth strokes leading with the blade. Keep back wheel down.

Some guys like to shave with the grain, some against. In order to go in different directions, just turn the HeadBlade Sport around on your finger. We suggest you shave each side of your head with that respective hand.

When you're done shaving, rinse with cold water. Use ClearHead after shave treatment. Follow up with a good moisturizing lotion like HeadLube Glossy or Matte. For sun protection, use our HeadShade Sun Screen. Go to our website and buy stuff – including shirts, hats and other cool gear.
